Subject: Tagged and corrected workplan
Attachments: May2013_Final_Public Health Study Remedial Design Work Plan, Phase 1 Study.pdf

Hi Bill,

Please add the workplan under site documents. I am sure you are aware of the message Dina sent me below. If there are any other issues please let me know. Thanks for all the work.

Nikia

Hi Nikia,

The attached PDF is tagged and has reset hyperlinks to EPA Region 8's new website pages, where applicable. Other hyperlinking issues have been resolved. Please let me know if you have any questions.

Regards,
Dina

P.S. You might let your webmaster know that within the new EPA Region 8 website (i.e., www2.epa.gov/region8), there remain links back to the original website content depending on how you navigate to the information of interest. For instance, from this link: <http://www2.epa.gov/region8/administrative-order-partial-remedial-designremedial-action-implementation-and-certain> the page states:

You are here: [EPA Home](#) » [Region 8](#) » Administrative Order Partial Remedial Design/Remedial Action Implementation and Certain Operation & Maintenance at Butte Priority Soils Operable Unit/Butte Site: In the Matter of: Butte Priority Soils Operable Unit of the Silver Bow Creek/Butte Area Site

But if you navigate back to the preceding page using the Region 8 hyperlink and click on the state of MT in the map, it takes you to another page where if you then click on Superfund Sites in Montana, you are directed to the old website page rather than the new one.
